Gary Anderson Photography

Thankfully Keyloh's talent has overcome my novice training and handling. She is intense, willing and powerful. Chip is a valuable part of Braford cattle operations on land leases in Texas and Louisiana.

He has shown a natural ability for getting the job done, from loading heifers into a trailer in the middle of the pasture to putting the chickens into the henhouse each evening.

Both dogs are easy to live with, sociable, good with other dogs and travel well.

Chip and Keyloh have complete health testing. OFA hips, elbows, eyes and thyroid.

Optigen prcd-PRA. Animal Genetics CD, CEA, CMR1, DM, HSF4-2 & MDR1.

All pups go to their homes with ASCA & AKC registrations complete, tattoo and/or microchip, eye certification and puppy wellness check.

Lifetime satisfaction guarantee.
